

Priya Nair

Embedded Software Engineer · Munich, Germany · priya.nair@example.com · +49 151 2345 6789

SUMMARY

Embedded engineer with 5 years of experience in C and C++ on automotive and industrial controllers. I like hardware that behaves the same on the bench and in the field.

EXPERIENCE

Embedded Software Engineer, Boschwerk Automotive 2022 – present

- Wrote the CAN bus driver and diagnostics (UDS) for a battery management controller on an STM32 with FreeRTOS.
- Found a race condition in the cell-voltage sampling with a logic analyser; field resets dropped from 40 to 2 per month.
- Set up hardware-in-the-loop tests in CI, so every merge runs on a real board.

Firmware Developer, Kuka-Robo Systems 2020 – 2022

- Ported motor-control firmware from bare metal to Zephyr RTOS.
- Cut boot time from 3.1 s to 0.8 s by lazy-initialising peripherals.

EDUCATION

BSc Electrical Engineering, Technical University of Munich, 2020

SKILLS

C, C++, FreeRTOS, Zephyr, STM32, CAN, UDS, SPI, I2C, oscilloscope, logic analyser, Python for test tooling, Git
