SUMMARY

Data analyst with 2 years of experience in SQL, Python and dashboards for a food delivery company. I turn messy event data into answers product teams can act on.

EXPERIENCE

Data Analyst, Deliveroom

2023 – present

- Built the weekly retention dashboard in Tableau on top of a dbt model of 30M order events.
- Analysed an A/B test of delivery-fee display; the winning variant raised checkout conversion by 3.2%.
- Automated a manual Excel report with Python and SQL, saving the ops team about 6 hours a week.

Data Analytics Intern, PolBank Digital

2022 – 2023

- Cleaned and joined customer survey data in pandas for the churn analysis.
- Wrote SQL queries for the monthly KPI report.
