

Max Hoffmann

Frontend Developer · Berlin, Germany · max.hoffmann@example.com · +49 151 2345 6789

SUMMARY

Frontend developer with about 4 years of experience building web apps in Vue and TypeScript. I like clean components, forms that are easy to use, and talking to the backend team early.

EXPERIENCE

Frontend Developer, Pixelhof Digital Agency 2023 – present

- Build customer dashboards and booking tools in Vue 3, TypeScript and Pinia.
- Moved a large Vue 2 app to Vue 3 and the Composition API over four months, step by step, without a feature freeze.
- Added component tests with Vitest; the team now writes a test for every bug fix.

Junior Web Developer, Stadtwerk Online 2022 – 2023

- Built pages and forms for a customer portal in Vue, connected to a REST API.
- Fixed accessibility issues: keyboard navigation, form labels and colour contrast.

EDUCATION

BSc Media Informatics, Berlin University of Applied Sciences, 2022

SKILLS

Vue 3, TypeScript, JavaScript, Pinia, Nuxt, HTML, CSS, Tailwind CSS, REST APIs, Vitest, Git
